

Name:

MULTIPLYING & DIVIDING BY 10, 100 AND 1000

Work out the following sums:

1) $286 \times 10 =$

1) $7300 \div 10 =$

2) $345 \times 100 =$

2) $45 \div 10 =$

3) $0.9 \times 100 =$

3) $43000 \div 100 =$

4) $0.45 \times 100 =$

4) $320 \div 100 =$

5) $407 \times 10 =$

5) $54670 \div 10 =$

6) $7 \times 1000 =$

6) $7800 \div 1000 =$

7) $90 \times 10 =$

7) $345 \div 10 =$

8) $56 \times 100 =$

8) $670 \div 100 =$

9) $7.8 \times 10 =$

9) $3200 \div 1000 =$

10) $5 \times 1000 =$

10) $4580 \div 100 =$

Complete the sums by filling in the missing number:

1) $\quad \times 10 = 1820$

1) $\quad \div 10 = 7000$

2) $\quad \times 100 = 12000$

2) $\quad \div 100 = 83100$

3) $\quad \times 1000 = 168000$

3) $\quad \div 1000 = 4000$

4) $\quad \times 10 = 89.2$

4) $\quad \div 10 = 89.46$

5) $\quad \times 100 = 7890$

5) $\quad \div 100 = 0.045$

6) $\quad \times 1000 = 890$

6) $\quad \div 1000 = 5.3$
